### 500801 Extension set reindeer

Reindeer sleigh with Santa Claus figure and four reindeer. The handcrafted and hand-painted metal model is the highlight of 2020. The model is made entirely of metal and hand-painted with UV-resistant colors.

The finely detailed sleigh with Santa Claus figure and a sack full of gifts is pulled by four reindeer. The reindeer are also finely detailed and very realistic, with antlers and bridles. One of the two reindeer has a red nose and is called "Rudolph".

Even in the USA, a similar model was not found, fitting the large train.
